Parent Autism Awareness Workshops

The Communication and Interaction Team (C&I), in partnership with the Autism Education Trust (AET) and subsidised by the North Devon Forum for ASC & ADHD, are delivering a series of workshops designed for parents in North Devon, whose child is on the Autism Assessment Pathway. The workshops will improve understanding, provide knowledge & teach skills to help support children who display possible autistic traits.

Audience: Parents / Carers

The interactive workshops will run for 4 days, over 4 weeks, covering the following topics:

Day 1 Autism Awareness

Day 2 Communication

Day 3 Behaviour

Day 4 Sensory Processing

Families will gain the most from the workshops if BOTH parent/carers can attend ALL sessions, where possible.

This helps to maintain consistency when putting learnt strategies into action at home.

WHY CHOOSE THIS TRAINING?

- Develop skills, knowledge and understanding so that parents feel equipped to support their child
- Learn about a range of strategies which may support your child and family
- Provide parents with the opportunity to connect with other families and professionals and to share good practice
- Learn about the work of The North Devon Forum and Devon Information & Advice Service (DIAS)
