December 2019

Dear Parent/Guardian,

Our school uses Lexia Power Up™, a web-based reading program which provides the targeted practice and instruction students need to develop their reading skills.

We will not be setting any formal homework for every student, however some tutors may ask some students to look at particular activities to boost their learning. Our tutors can then look at the information provided by Lexia and see what each student has been working on and help them further.

As an added benefit, students can use Strategies at home. Getting started is easy. You can download the Lexia Power Up app - which is free and looks like this →

or access it via a web browser.

1. Launch a web browser and go to www.lexiastrategies.com.
 - Create a bookmark or favorite for this web address.
2. The first time you access Lexia Power Up, you must set up:
 - Click the Student/Parent button.
 - Type in your teacher's email address, first initial and surname followed by @lampard.devon.sch.uk and click the arrow button to continue. We can provide this for you if you're not sure.
3. Allow or help your child to login. The student username and password (attached) is the same login they use at school.

Important! Please allow your child to work independently at his or her own pace.
Provide encouragement, but don't give away the answers!

Please try to ensure an average of 20-30 minutes per session. We recommend usage be kept to a reasonable level – not too short and not too long.

If you have any questions or have forgotten the login details please contact Mrs Marquiss on 01271 345416 or via your child's home/school book. There's also help available online at www.lexialearning.com and click **Support**.

Yours Sincerely,

Sophia Marquiss
