	19/01/16		

15 children from the 24 who have started/ completed bikeability Level 1 were unable to ride a bike safely or competently across the playground. 65% of students who have worked through 'bikeability' as part of their Physical Development were unable to ride a bike.

35% of students have progressed through level 1 and are competent and secure in their ability to start level 2. This will teach them how to ride on the highways.
